Signature of Parent/Guardian: _____

2nd Year Music Summer Exam

Total Marks: 128 / 160
140

Section A – Basics (40 marks)

1. Note Values (12 marks)

1. How many beats in a semibreve? 4
2. How many beats in a minim? 2
3. How many beats in a crotchet? 1
4. How many beats in a quaver? 1/2
5. How many beats in a semiquaver? 1/4
6. Which note is worth 2 beats? Minim
7. Which note is worth 1 beat? Crotchet
8. Which note is worth 1/2 beat? Quaver
9. Which note is worth 4 beats? ~~Minim~~ Semibreve
10. Name one note shorter than a semiquaver: Demisemiquaver
11. Name one note longer than a minim: Semibreve
12. What note gets one beat in 4/4 time? Crotchet

2. Instruments (14 marks)

1. The violin belongs to which family? ~~Woodwind~~ Strings
2. Name one brass instrument: French horn
3. Name one woodwind instrument: Flute
4. Name one percussion instrument: Tam-tam

5. Which instrument has keys like a piano? Organ
6. Which instrument uses a bow? Violin
7. Which instrument is the largest in the string family? Harp
8. Which instrument uses a reed? ~~Oboe~~ Clarinet
9. What family does the flute belong to? Woodwind
10. Is the trumpet high or low pitched? High
11. Name one instrument from the string family: Violin
12. Name one instrument from the brass family: Trumpet
13. Name one instrument from the woodwind family: Oboe
14. Name one instrument from the percussion family: Xylophone

3. Piano & Musical Signs (14 marks)

1. The musical alphabet goes from A to G
2. A sharp raises a note by a semi tone
3. A flat lowers a note by a semi tone
4. Middle C is found on the piano
5. What does f mean? forte
6. What does p mean? piano
7. What does mf mean? mezzo forte
8. What does **crescendo** mean? getting louder
9. What does **allegro** mean? fast
10. What does **lento** mean? slow
11. What does **accelerando** mean? getting faster
12. What does **diminuendo** mean? getting softer

14

13. Is forte loud or soft?

loud

14. Is piano loud or soft?

soft

Section B – Elements of Music (40 marks)

1. Definitions (20 marks)

Define each in one or two sentences.

- ✓ Dynamics How loud or soft a piece is played.
- ✓ Tempo How fast or slow a piece is played.
- ✓ Pitch How high or low a note is played.
- ✗ Timbre (tone colour) The unique feel and texture of an instrument.
- ✗ Texture How deep or light a sound is.

(4 marks each)

2. Short Questions (20 marks)

1. Is pitch about high/low or loud/soft? High/Low

2. Give one dynamic marking: f (2)

3. What does fast tempo mean? play it fast

4. Give one word to describe tone colour: dark (2)

5. What is a piece with one melody only called? Unitary (2)

6. Does forte mean loud or soft? loud (2)

7. Does piano mean loud or soft? soft (2)

8. Name one way music can get louder: crescendo

9. Name one way music can get faster: accelerando

10. What is texture in music? the feel of the music

Section C – Rhythm & Notation (20 marks)

1. Counting Rhythm (10 marks)

1. Crotchet + crotchet = 2 beats

2. Minim + crotchet = 3 beats

3. Quaver + quaver = 1 beats

4. Semibreve = 4 beats

5. Two minims = 4 beats

2. Complete the Bar (10 marks)

Each bar must equal **4 beats (4/4 time)**. Add ONE note to complete each.

1. Crotchet + crotchet + crotchet + crotchet

2. Minim + crotchet + crotchet

3. Semibreve + nothing

4. Quaver + quaver + crotchet + minim

5. Minim + minim + nothing

Section D – Listening (20 marks)

Read the following:

A piece starts quietly with a slow melody. Drums enter and the music gets faster and louder. It ends suddenly with a loud chord.

1. How does the music begin? quietly (2) and lento

2. Is the tempo slow or fast at the start? slow (2)

3. What happens when the drums enter? music (2) gets faster and louder

4. Does the music get louder or softer? louder (2)

5. What is the final chord like? low (2)
6. Name one instrument you might hear: drums (2)
7. What is the mood of the piece? explosive
8. Name one element of music that changes: dynamics
9. Is the ending sudden or gradual? sudden (2)
10. Would this music suit a happy or sad scene? happy (2)

Section E – Written Response (20 marks)

Answer BOTH questions

1. Describe Music (10 marks)

Describe a piece of music you know. Include:

- Instruments
- Tempo
- Dynamics
- Mood

✓ The song is called "Aux Champs Élysées".
 10 It's a French song from around the ~~early~~ late sixties to early seventies. There's a lead vocalist, backing vocalists, a saxophone and a drum kit. The song is at a ~~(moderate tempo, but for)~~ walking pace tempo, not being especially fast or slow. The dynamics are moderate for most of the song, but fade to silence at the end. The mood is upbeat and light, reminiscent of a sunny day in Paris.

2. Your Learning (10 marks)

Write a short paragraph about what you have learned in music this year.

10. This year in music I have learned a lot. I have learned how to make music on digital software (Garage Band), I have practised and improved my vocal abilities. I have enhanced my knowledge of this stuff, i.e. knowing all of the notes of the treble and bass staves and how to write above and below them and I have learned how to make chords.

Section F – Extended Question (20 marks)

Answer ONE question

Option A – Concert Review

Imagine you attended a live concert or musical performance. Describe it in detail. Include:

- Instruments or performers
- Tempo and dynamics
- Mood
- What you liked or didn't like

18
The concert was a concert by VEB, a techno duo from Ireland. The group consisted of five people. The two lead singers, two dancers who often gave backing vocals, and a DJ who did sound effects and played the music in the background. The music played had a synth, violins, a drum kit and sometimes extra backing vocals. The music was fast, but not at the speed of a rap.

It was fast enough that it felt
 exciting but still slow enough for
 words to be said in full. Around an allegro.
 The music was played very loudly. Around
 a fortissimo. The crowd also sang along
 but because the music was so loud, you
 could still hear it well. The overall mood
 was upbeat and happy. The songs were
 about positive things and the performers
 were happy to be there. I liked how
 the crowd made the show even better.
 Between songs, they would talk to the
 performers and it made the entire experience
 more enjoyable. The crowd also brought
 some negatives however. Some taller, stronger
 people pushed to the front beside the stage,
 making it sometimes hard to see the performers.
 Overall, I really enjoyed the concert.

Option B – Create Your Own Piece

Imagine you are composing your own piece of music. Describe your piece. Include:

- Instruments - Vocals, electric guitar, drums, bass guitar
- Tempo - ~~slow but sometimes fast~~ quick
- Dynamics - loud, but sometimes becomes quiet
- Mood - gritty, dark
- How it begins and ends - vocalist releases burst of energy, guitars play a very loud chord

The song is called "The Day of the Bomb". It starts with a vocalist releasing raw energy in the form of a scream. This sets the dynamics to high, which is continued by ~~the~~ electric guitar, accompanied by ~~the~~ drums. After a few seconds, ~~the~~ bass guitar joins in, supporting the electric guitar. All of the accompaniment continues playing what they are playing as the vocalist joins in, singing the first verse. It describes a city in rubble after a bomb is dropped on it. It sets a dark and gritty mood. All of a sudden, the dynamics drop. The vocalist comes in with the chorus, and slowly, the ~~other~~ accompaniment joins back in. While this is happening, the dynamics are going back up, with the vocals becoming increasingly raw until the vocalist lets out another scream. The whole thing repeats again until the end of the second chorus, where, instead of the scream, the vocalist begins to repeat a line. The accompaniment, meanwhile, repeats the start of the first part they all share. As the vocalist repeats the line, it goes from monotone to manic. Going from the already fast pace of the song to presto. The vocalist lets off a final scream as the accompaniment crescendos

into a ~~(last)~~ final, striking, loud
chord. The song ends suddenly.
